EVENT SUMMARY

Full event analysis may be requested. Please see IPB-JVA-452.

IPB-ASG-001 fell 000:000:002:162 off schedule in an attack by IPB-ASG-012. IPB-ASG-012 was one of four (4) possibilities for the event IPB-ASG-894. These alternatives can be found on page 7 of the IPB-ASG-095. Cause of displacement of the event was due to IPB-SAK-324 (see: Revengers), but with the completion of the event, the time variance displacement has been deemed inconsequential by IPB-TVA-001. IPB-ASG-012 of IPB-KIL-001's destruction of IPB-ASG-001 has been deemed in totality. IPB-ASG-895 will be the final file of the IPB-ASG sequence. All other files regarding the further events of the people of IPB-ASG-001 can be found in IF0-ARK-001 and onwards.
