EVENT DETAILS	
EVENT ANALYSIS	Nexus Event caused by the use of Unknown Magical ...
CASUALTIES	(3) Minuteman, (1) Hunter MIA
TIME STATUS	EARTH - 1985
CAUSE OF DISPLACEMENT	Unknown
EVENT SUMMARY	
<p>A Nexus Event was detected on the Earth-1985 branch. Hunter C-20 and her squad where send to investigate and went dark shortly after arrival. Temporal ware collected at previous crime scenes point to a Variant Loki and the same was found at the Renfaire crime scene.</p> <p>Location: Jousting Tent, Renfaire 1985 Squad C-20, 3 Minuteman Accompanying Squad - Hunter B-15, Hunter D-90</p> <p>Upon arrival at the Nexus Event it was quickly determined to be an ambush as we found no Hunter C-20 on site and her three Minuteman expired. A struggle ensued and the squad appears to be distracted with tent music and an unknown threat. The cause of death [which] looks to a confused response to the attack.</p> <p>As with similar cases were all reset charges taken by force, which seems to point at thoughtful executed work. However, an ID on the Variant Loki beyond temporal evidence has not jet been captured.</p> <p>Acquired Variant Loki L1130 assisted in the investigation but his findings did not contribute as lead going forward.</p> <p>In conclusion of my findings the branched timeline was pruned and the Sacred Timeline was maintained. At this point, Hunter C-90 is still MIA and a search along The Sacred Timeline has begun.</p>
